BIG PATRIOTIC MEETING

Will Be Held By the Citizens of Maysville on Sunday Afternoon at 2:30 O'clock in the Washington Opera House.

The largest and most representative meeting since the Civil War will be held in Maysville at two o'clock Easter Sunday afternoon at which time Maysville will declare herself and her patriotism at this time of national crisis.

Now that war with a foreign nation has become necessary now that we must enter into a mighty conflict with a clear conscience and a cool head, now that the foundation of our country is threatened, it is absolutely necessary that every man stand forth and declare his fidelity to his country.

A meeting was held yesterday afternoon at the Chamber of Commerce, of a general committee representing practically every organization in Maysville, every creed—all Americans—and the final plans were made for the mass meeting to be held Sunday afternoon at the Washington Opera House where the red-blooded American citizens will declare their loyalty to the United States of America.

At this meeting a Executive Committee composed of Messrs. T. M. Russell and C. E. Dietrich and Mrs. Amanda Lovel were appointed to have charge of the arrangements.

The management of the Washington Opera House have patriotically offered the house to the public on Sunday afternoon. Prominent local men will talk and the orchestra has volunteered its services in rendering the greatest of all music, the National Air, the Star Spangled Banner.

At a time such as this it is necessary that those in authority know that every American citizen stands staunchly behind our government in whatever may be necessary to preserve the honor and integrity of our country. The meeting will express the attitude of the people of Maysville; that we stand solid as a unit in the nation which represents everything which we hold dear, life, freedom and the pursuit of happiness.

Dedicate Sunday afternoon to your country. Out of all the days of the year which are your, give this afternoon to show that you are a red-blooded American citizen. Turn out in force and pledge anew your loyalty to the country which your forefathers won at such a mighty cost in order that you might enjoy the freedom and privileges of which the Star Spangled Banner is the symbol.

Be at the Opera House at two o'clock Sunday afternoon and listen to pledges of loyalty to be made by your citizens. Come and stand up and uncover when Old Glory is unfurled and the band plays the Star Spangled Banner.

The Chamber of Commerce, the Ministerial Association, the Woman's Club, the secret organizations all of the organization in Maysville are standing shoulder to shoulder to support our country and each to do his share to protect the honor and integrity of the nation.

Every citizen, regardless of who he is or who his forefathers might have been, every man who has red blood in his veins and who loves our country and is willing to do his share should come and show his colors.

Bring your wife, bring your family, or bring the young lady you have an engagement with, every one come and dedicate two hours Sunday afternoon to our country.

Come, your country needs you.

In tomorrow's paper the complete program of speakers and music will be announced.

All organization are invited to attend in a body and a special invitation is issued to and seats on the stage reserved for all Civil War and Spanish War veterans.

The Gem Theater will open on Monday with high-class pictures. A new organ has been installed in the place, which will furnish the music for the patrons. Managers Baughman and Salter are expecting to do a good business. They will show some of the leading films of the day.

TOWER KNOCKED OVER

Watchman's Shanty of Mr. George W. Alton Near Broadway Street Hit By Crane and That Gentleman Injured.

Mr. George W. Alton, gateman between Broadway and Main streets, suffered several injuries this morning at 1:10 o'clock when the crane of crane car on local train No. 64 on the C. & O. hit his shanty and knocked it over.

The crane car was being taken to Newport News, Va., by local freight. In some manner the crane became loose and swung around. The tower of Mr. Alton sits very close to the track and in passing the arm of the crane was long enough to reach to it. With terrible force the crane struck the shanty knocking it over.

Mr. Alton suffered a broken rib, two scalp contusions, two cuts on the hand, a bruised knee and several other minor cuts and bruises. He was hurriedly taken to his home on Forest avenue and Dr. A. O. Taylor summoned. He is resting easily at the present time.

The Mason County Health League Takes the Opportunity of a Sanitary Survey Offered by the State and Federal Government.

The Mason County Public Health League accepted the offer from the State Board of Health and the Federal Government for a Sanitary Survey.

All but \$500 has been pledged and the directors felt justified in standing back of that amount and considered that there were enough good citizens in Maysville and Mason county who had not been called upon to contribute and, who, if asked, would be glad to help raise this amount. The matter has been taken up with Dr. A. T. McCormack, who will notify the Federal authorities and work will be started as soon as possible.

HOW MANY?

President Wilson is waiting for a German submarine to sink a ship with the consequent loss of a considerable number of Americans—Special in New York Times.

How many Americans must die?
One—two—three—four?
Say, must the number go as high
As five, or ten, or twenty score?
How red must be the winter wave
With life blood ere we fight to save?

We've done our best; we've turned the cheek—
We have no more to turn.
The foe's excuse we've tried to seek
Our face with shame aburn.
At last his spokesman home we sent—
Now were we bluffing? Was it meant?

Ships fear to sail. Commerce is wiped
From the horizon's rim.
O, must our flag grow yellow striped,
And all its stars wax dim,
That once shone forth in gallant glee
And braved the blast on every sea?

SAMUEL MINTURN PECK, in the New York Times.

PREPOSSESSED OR EMPTY?

For many years, Woodrow Wilson was opposed to a tariff commission. He continued that opposition for two years after his election to the presidency. Then he changed his mind and during his campaign for re-election advocated a commission. In an address on the subject he said that the board should be composed of men "as free as possible from prepossessions," but later remarked that "men without prepossessions are hard to find, and when you find them they are generally empty of anything else."

Now that the members of the commission have been selected, it would be interesting to know which of the men President Wilson classed as having prepossessions and which of them, having no prepossessions, are "empty of anything else." Perhaps he will let the men classify themselves.

A TRIUMPH OF MEXICAN DEMOCRACY

One of the triumphs of Carranza's Mexican democracy is to be the closing of all American mission schools and churches in Mexico. Representatives of the Methodist missions estimate that the investments of their church alone in school and other institutions in that country amount to ten million dollars. Carranza's "liberal" Constitution prohibits the ownership or even the management of real estate and the teaching of schools by a religious sect.

Yet they tell us that Porfirio Diaz, under whose administration these schools flourished and were protected, was a despot. Even the unspeakable Turk has not kicked our mission schools and churches out of his empire.—Providence Journal.

MERRY MUSIC MASKED AGONY

At the time that he was composing the music for "Pinafore," one of the merriest of operas, Sir Arthur Sullivan was suffering from a most painful disease. There was hardly an hour while the work was on that he was not at the verge of fainting.

If Sullivan could keep his labors untainted of groans, how much easier it must be for us who seldom experience such sufferings. It takes but little self-discipline to keep irritation to oneself, to force cheerfulness to maintain the upperhand of depression, to present a brave face to all about us. The person who says that come what may, it shall find him unafraid has won the greatest thing in life, the mastery of his own spirit.

FAILURE OF ORGANIZED LABOR

In any survey of the state of the nation as a prospective belligerent, no fact comes with more force to the informed liberal than the unpreparedness of the American labor movement. The country has a right to demand two things of organized labor in this time of crisis—first that it serve as an agency for organizing the main body of wage earners for willing national service, and second, that it shall render American labor alert, articulate and efficient as a great liberal force standing guard over the people's political liberties and economic well-being, protecting them from the encroachment and assaults of executives to intent on the job in hand to be entrusted with the preservation of these spiritual and material treasures.

THE NEW PARTY IN PROPHECY

Matthew Hale has called a conference for the organization of a Liberal party. It will be held just before the extra session of Congress convenes and it will be composed, we are told, of progressive Republicans, progressive Democrats, Socialists and other radicals, and Prohibitionists. An accurate picture of the proceedings may be found in the Scriptures, where (First Samuel, xxii-2) we read: "And everyone that was in distress, and everyone that was in debt, and everyone that was discontented, gathered themselves unto him, and he became a captain over them; and there was with him about four hundred men."

MANUFACTURERS IGNORED

It is indeed remarkable that the new tariff commission does not contain a single member who can speak from experience for the manufacturing interests of the country. Mr. Kent may be taken to represent the farming interests, perhaps, though he is not a farmer in the general sense. Mr. Lewis may be taken to represent labor, or at any rate that part of it which is highly unionized and inclined to socialism. The others represent professional and theoretical views on economic subjects—and there is no one to represent that vast volume of capital and that tremendous amount of enterprise which are wrapped up in the industrial establishments of the country.

It is claimed the United States is drunk with gold, but there are quite a number of bone dry localities in this neighborhood.—Oswego (N. Y.) Times.

PRESS UNITED BEHIND WILSON

New York, April 3.—From East, West, North and South newspapers are today practically one in acclaiming the war message of President Wilson to Congress as an utterance that will find a tremendous response from every American.

The New York Sun, perhaps the bitterest critic the administration has, finds in it "the voice of the nation" and says that for the "firmness, resolution and self-respect of it much of the previous indecision could be forgiven."

The expression, "President Wilson has voiced the unanimous will of the American people," occurred again and again in the editorials in slightly altered form. Some of them were:

"The United States rallies to the call," "The words of the President ring true to every test," "It is for each of us now to manfully play his part in the great cause to which our country has become committed."

Many of the papers express complete confidence that Congress will at once respond to the wishes of the President, enabling this country to be of tremendous aid to the Allies.

The Toronto (Ont.) Globe says: "The natural foe to Liberty has now arrayed against him the entire English-speaking world."

IT'S AN ILL WIND, ETC.

The Mt. Olive Tribune-Democrat of this week says: A change of time on the Maysville and Lexington branch of the L. & N. will delay our mails coming from that direction about 24 hours.

The change in the mail service was made in order to accommodate the residents of Carlisle, Millersburg and Paris, but the towns on the northern end of the branch are getting the worst end of the change. Some way should be devised in order that all towns are pleased, but it seems that this will be impossible. Probably after several months of the new service it may be changed again.

MASON COUNTY MEDICAL SOCIETY

The first meeting of the Mason County Medical Society for the year 1917 was held last Friday evening at the St. Charles Hotel. Quite a number of the physicians of the county and city were present, and, judging from the interest and enthusiasm manifested, there can be no doubt that future meetings of the Society will prove to be very interesting and instructive. A very delightful banquet had been prepared by the proprietors of the Hotel, to which ample justice was done by those fortunate enough to have been present.

After the banquet the Society was favored by a very excellent paper read by S. A. Laughlin, M. D., of Aberdeen, Ohio, on the "Thyroid Gland". The discussions entered into by the physicians showed very great thought upon the subject, and altogether it was a very instructive paper and the discussions which followed it equally so.

After this, Dr. Dunham, who is at the head of the Branch Hospital for the treatment of tuberculosis in Cincinnati, gave a very exhaustive talk upon that subject and at the same time gave a demonstration of the apparatus in use at the hospital for Pneumo-thorax. Dr. Dunham is a very pleasant and forceful speaker, and it was indeed a pleasure to the Society to be able to bring such men as this before the profession for the benefit of the local Society. It is to

be regretted that every physician in the county could not have been with us and heard these two interesting and instructive papers.

A resolution was offered to the effect that this Society go on record as being heartily in favor of the Sanitary Survey now being agitated in this county as will be seen from the following:

"RESOLVED: That this Society heartily endorse the Sanitary Survey, and a record be made by the Secretary in the minutes, and that every member of this Society use his utmost efforts to further the movement."

This Society should be in a position today to become the dominant factor in the municipal management of affairs pertaining to the welfare of our citizens. As a medical body, organized with the view of protecting the health and the happiness of our people, we should stand as men with the courage of an honest conviction, voting for and promulgating principles over mere pride. It is to be hoped that every physician in Mason county will ally himself with this Society and attend the meetings and thus bring about a united effort to do their duty pertaining to all the sanitary problems which constantly arise in our complex system of living.

The meetings of this Society are in

tended for mutual improvement, and no doctor, actively engaged in the practice of medicine, can afford to hold himself aloof from his fellows, and while this Society needs the influence of every reputable physician, the onus is with the individual, as he needs the influence of the Society more than the Society needs his influence. Think of the possibilities for good of a united professional! The scientific, moral and political force of such a union would be of incalculable benefit to the community.

The next meeting of the Society will be held sometime during the month of May in Maysville as the guests of Dr. H. M. Davis of that place who very kindly invited the Society to meet with him. Due notice of the time will be given by the Secretary. Some very excellent papers are in course of preparation, and there will be papers read by visiting physicians from other parts of the State, and those physicians who do not attend this meeting will miss a very rare treat.

A PLEA FOR THE PLAY-GROUND

We are not disturbed by the fear of our boys and girls becoming dull from "all work and no play," but we should be disturbed about where and what they are going to play.

Our experience teaches us that if Jack is a normal, healthy boy; he is going to play. He should play. Play is not only youth's birthright; but it has an educative value that nothing else can supply.

If Jack is going to play and if it is right that he should, the responsibility devolves on the older members of a community of seeing that he is given a suitable place to play.

If he is curbed in every natural impulse for wholesome play, he will not only from habits of unwholesome play; but he will form the habit of feeling that "part of the play" is doing that of which his elders disapprove. If a child has the sanction and sympathy, in his play, of those who should advise him; he is going to be the more easily and successfully guided by them, in his work.

One of the helpful periods in a school day's regime is a ten minutes' recess, spent in happy, romping play. It brings health—the result of the exercise, fresh air, joy; and health pleasure in work, and increased ability to do work.

We, in Maysville, have given our children a school building of which we are all justly proud; but one important essential is lacking—the playground.

The small plots of ground around the High School building are too small for play, so they are wisely used for ornamentation. The walks and dusty streets are the playgrounds. Few are the games that can be played there, and many are the restrictions concerning those games. It is almost a case of: "Yes, my child, you may go swimming, but don't go near the water."

The Parent-Teacher Association of the High School building is endeavoring to supply this want. Buy a ticket to the opera, which is being so ably directed by Miss Jones, and help to give the boys and girls a much needed place to play.

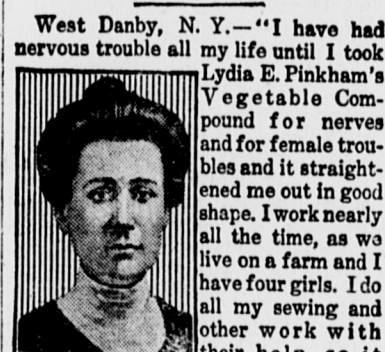

NEW WAR INVENTIONS BY EDISON EXPECTED IN FRANCE

Paris, April 3.—The attention of France is fixed intently on Washington waiting for a vote by Congress on President Wilson's recommendation that Congress declare that a state of war with Germany exists. Among the characteristic newspaper comments is that of the Temps, which says:

"It is a great date in the history of America, a great date in the history of humanity. The decision not to mix in the quarrels of Europe has

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time, as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SINCEBAUGH, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound. This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

dominated American policy for more than a century. German violence has been stronger than this will, and a new ally joins us. Despite the Monroe Doctrine, despite immigration and despite all sorts of ties binding to nations, the aggressive policies of the Hohenzollerns have forced war on a people which was firmly decided to remain neutral.

"What will Edison do?" "What unexpected discoveries will he offer to his country?" are questions that are being asked by the French people in view of the prospect of the United States joining the Entente. The greatest curiosity is being manifested in possible new war inventions.

FLAG WITH HISTORY

In the north window of De Nuzie will be seen a large silk flag with a card stating that particular flag has a history. Yesterday we inquired its history and were informed that the flag belonged to Hon. W. H. Cox of this city. When a company was raised in this county during the Spanish American War Mr. Cox ordered the flag for the company. Before it arrived however a popular subscription had been raised and another flag ordered. When the flag of Mr. Cox arrived it was too late and he has kept it since. The flag cost \$50 at that time and would bring three or four times that much at present day prices.

LEWIS COUNTY MAN SUICIDES

Mr. Cliff Bates of Kinney, Lewis county, well known to a large number of Maysville people, suicided at his home on last Saturday. Mr. Bates had been in ill health for some time and for the few days preceding the act seemed very morose. He used a .38 caliber revolver to kill himself with, shooting himself in the head. He was 50 years of age and leaves three brothers and two sisters. He was never married. His home was the headquarters for a number of Maysville men who make an annual fishing trip to that section.

Mr. Len Purnell is confined to his home in East Fifth street with illness.
